Forecast for Sunday 05 Nov 2023

Weather: Mainly cloudy at first overnight with occasional rain, focused across the east, passing to clear spells and scattered showers before dawn. A day of brighter spells and showers with outbreaks focused across western areas of the Park where some turn heavy with the risk of hail and thunder. Many in east staying dry and enjoying the best of the brighter spells. Showers occasionally wintry across very highest peaks.

Chance of cloud-free hill tops above 800m: 60% in west. and 80% in east

Low Cloud and visibility: Good or very good, becoming moderate or poor in showers, very poor in snow within cloud with bases lowering 600m at times, particularly in the west.

Meteorologist's View

Severe wind chill across higher peaks for Sunday.

Forecast for Monday 06 Nov 2023

Weather: A mix of brighter spells and showers, with western areas catching the bulk of the outbreaks, these potentially heavy with hail and thunder. Snow level around highest tops.

Maximum wind: Westerly increasing 20-25 mph with gusts reaching 35 mph across most exposed ridges and summits.

Chance of cloud-free hill tops above 800m: 60-70% in west and 80-90% in east

Low Cloud and visibility: Good or very good, becoming moderate or poor in showers, very poor within cloud with bases lowering 600m at times, chiefly in the west as showers push through.

Temperature: **Valleys:** Plus 4 Celsius increasing 11 Celsius during the afternoon
At 800m: Plus 3-4 Celsius
Freezing level: Above summits
